ENVIRONMENTAL PERMIT

Project: Proposed Henvey Inlet Wind Transmission Line
Location: Magnetawan First Nation Reserve Lands No. 1

In accordance with Part 2, Section J.1(a) of the Environmental Permitting and Protection Land Law, Land Law 2017/18-003, Council of the Magnetawan First Nation has decided to issue this environmental permit to prepare for, construct, install, operate and decommission the Henvey Inlet Wind transmission line physical works and activities on its Reserve Lands.

- 1) Henvey Inlet Wind shall only construct, install, use, operate, maintain and decommission the Transmission Line located on the Magnetawan Reserve Lands No. 1 in accordance with:
 - a) the Approved EA Report, as determined under Band Council Resolution 2017-19-036, and comprised of:
 - i) the September 2015 Environmental Review Report;
 - ii) the June 2017 Environmental Effects Determination Report;
 - iii) the August 16, 2017 peer review report (Environmental Review of EA and Related Documents); and
 - iv) the peer review Addendum dated September 28, 2017 (including conditions set out in Appendix E); and
 - b) the Environmental Permitting and Protection Land Law, Land Law 2017/18-003.
